

Appendix 2

Following the recent accident with the Council van our Grounds Team are now without transport and it is not viable for them to complete their duties effectively without a vehicle.

At the personnel meeting 15th November 2021 we discussed different options for replacement vehicles. It was agreed that the best way forward was to look at Pick-ups, rather than replace like for like. The reasons for this are as follows:

1. A large van is not needed as the equipment used and carried around is portable. A pick-up would provide adequate storage.
2. A pick-up, having 5 seats, provides enough seating for the members of staff, unlike previous vehicles.
3. Pick-ups have increased towing capacity which more greatly meets the needs of the team, and have the ability to go off road with ease – something that is very beneficial at sites such as Decoy.

I have contacted many local and national companies, in the hope of leasing a vehicle on a temporary basis, and it has become clear that there is a shortage of commercial vehicles. The only vehicle I can lease on an interim basis is £1200 pm without insurance, and that is for an older style long wheel base or box van. I have been able to find no other vehicles for lease that are available within the next 4 weeks. Please also note that this would be temporary and we would still need to find a permanent solution.

I have explored options for lease on pick-ups, and although these are more competitively priced, again these are factory order so not available with known lead times. I am therefore would like to recommend that the council considers purchase of a used vehicle.

The following attachments are used vehicles that I have found at local companies. I have limited my search to vehicles 6 years old or less, as I am aware that our previous van was often in need of maintenance. All of these are available within a week, serviced, and with a years MOT. These are the lower priced vehicles offered by these companies.

I also note that in the case of Attachment 1a, Abbeygate have indicated that they may be able to offer a discount on the list price, although it is unclear at this stage what this might be.
