

11 July 2022

A11 Spooner Row to Tuttle Interchange reconstruction scheme – Northbound Closure for safety barrier works

I'm writing to provide you with an update regarding the upcoming reconstruction of the road on this stretch of the A11.

We're going to close the northbound carriageway of the A11 from Attleborough to Thickthorn, each night (between 8pm and 6am) from Monday 25 July to Saturday 30 July 2022.

The closure is needed so we can safely remove the existing barrier in the central reservation of the A11. We'll also use this opportunity to install 342m of safety barrier at the place where the A11 crosses the railway line, to allow us to continue our reconstruction of the carriageway.

We are working to minimise the impact on the local community, but the works are expected to be noisy on occasion. We'd like to apologise in advance for any disturbance that might be caused.

Keeping the community updated

We've sent a letter discussing the above to every home within a 500m of the scheme, so we can ensure that the local communities who will be impacted by our activity have been informed. We've also provided them with a 24/7 telephone number and email address for the project, so they can get in contact if required.

We look forward to updating you on our progress in the near future. If you require further information, then please feel free to contact us by calling the 24/7 National Highways Customer Contact Centre on 0300 123 5000, email ConcreteRoadsEastA11@nationalhighways.co.uk or visit our website at www.nationalhighways.co.uk/A11concrete.

Road users can also keep up to date on road closures by visiting our Traffic England website at www.trafficengland.com or by following our Twitter feed:

@HighwaysEAST.

Yours sincerely

Andy Dyer
Project Manager
