

Latest e-Bulletin from the A11 Spooner Row to Tuttlles reconstruction scheme

Upcoming work

8 March 2023

Advanced notification of overnight resurfacing

I'm writing to provide you with an update on the reconstruction of the A11 carriageway between Spooner Row and the Tuttlles Interchange at Wymondham.

We've made good progress with our work and have finished rebuilding the foundations of the first section of the southbound carriageway, which means we're ready to begin laying the new asphalt road surface.

Once complete, this will improve safety and provide a smoother, quieter journey. It'll also provide a new modern road with a 40 to 50-year lifespan that'll be easier and quicker for us to repair in future.

This work will start on Tuesday 14 March and is expected to be finished by the end of June 2023. It will be carried out between 8pm and 6am each night, and no changes will be made to the current layout of the road. Road users will be able to continue using the contraflow that's already in place while we carry out this work.

How will this work affect the local community?

Resurfacing is not typically considered to be a noisy activity; however, we will need to use a 'percussive roller', which uses vibrations to compact the new road. There is a chance that some residents may notice minor vibrations as a result of this work and we're sorry for the inconvenience this may cause.

We'd like to assure you that we'll only be using the percussive roller for one or two nights in each location, and we work within specific limits when it comes to noise and vibration. We'll aim to keep disruption to a minimum and our team will use specialist equipment to measure vibrations to ensure we're working within our limits.

Please note that all dates are subject to change due to unforeseen circumstances and poor weather conditions. Please check our project webpage for the latest information before travelling: www.nationalhighways.co.uk/A11concrete.

Get in touch

We look forward to updating you on our progress in the near future. If you require further information, then please feel free to contact us by calling the 24/7 National Highways Customer Contact Centre on 0300 123 5000, emailing ConcreteRoadsEastA11@nationalhighways.co.uk or visiting our website at www.nationalhighways.co.uk/A11concrete.

Road users can also keep up to date on road closures by visiting our Traffic England website at www.trafficengland.com or by following our Twitter feed: [@HighwaysEAST](https://twitter.com/HighwaysEAST).

Yours sincerely

A handwritten signature in black ink, appearing to read 'Andy Dyer', with a stylized flourish at the end.
