

Latest e-bulletin for the A11 Spooner Row to Tuttlles reconstruction scheme

Upcoming work

23 January 2024

Advanced notification of A11 Wymondham Bypass weekend closure – central reservation hardening work

Following a recent road safety audit of the A11, we've identified two areas within the central reservation along the Wymondham Bypass that require hardening work.

To create crossover points, sections of the central reserve needed to be hardened – originally the central reserve was soil which need to be paved as part of the installation of the contraflow. Instead of returning these areas back to soil we have retained the hardened sections to support future maintenance on the A11. This left two short soft soil sections between the areas of hardening. Following the road safety audit, which is conducted after completion of the work, we have decided to harden these short sections to reduce the risk of potential loss of control incidents.

To complete this work as quickly and as safely as possible, we'll need a full weekend closure of the A11 northbound carriageway, with one lane of the southbound carriageway open during the day, from **8pm on Friday 9 February 2024**, to **6am on Monday 12 February 2024**. Please find more detail regarding the closures in the tables below.

A11 Northbound Weekend Closures

Date of road closure	Closure
From 8pm on Friday 9 February 2024, to 6am on Monday 12 February 2024	Full closure of the A11 northbound carriageway between Attleborough and the Thickthorn Interchange

A11 Southbound Weekend Closures

Date of road closure	Closure
From 8pm on Friday 9 February 2024, to 6am on Saturday 10 February 2024	Full closure of the A11 southbound carriageway between the Thickthorn Interchange and Attleborough
From 8am on Saturday 10 February to 5pm on Sunday 11 February 2024	Single lane closure of the A11 southbound carriageway between the Thickthorn Interchange and Attleborough
From 8pm on Sunday 9 February 2024, to 6am on Monday 12 February 2024	Full closure of the A11 southbound carriageway between the Thickthorn Interchange and Attleborough

During the closures time, traffic wishing to travel northbound on the A11 will be diverted along the A1066 at Thetford, before travelling northbound on the A140, and then westbound on the A47 towards the A11 at the Thickthorn interchange.

Southbound traffic will be diverted along the A47 at Thickthorn, before travelling southbound on the A140, and then westbound on the A1066 towards Thetford. For more information, please see the diversion route map at the end of this letter.

The weekend carriageway closure is needed so our team can complete the work safely. We're sorry for the disruption the closure may cause to your journey, and we encourage drivers to plan ahead and allow extra time when travelling. Road users can also keep up to date on road closures by visiting our Traffic England website at www.trafficengland.com or by following our X feed: [@HighwaysEAST](https://twitter.com/HighwaysEAST)

Please note that this closure is subject to change at short notice due to unforeseen circumstances or poor weather conditions.
