I live locally so availability/hours will not be a problem In my previous employment I was production and floor manager in an industrial painting company, I worked my way up from the bottom and held every position on the factory floor which included Labouring Cleaning Powder coating Packing Maintenance Grit blasting Yard man Team leader

As floor manager I had 25 + ppl under me and was responsible for the day to day running also including that everyone followed health and safety and the wearing of PPE ,opening and locking up of the factory and making sure all lights and equipment was turned off
